

## COMMITMENT TO SUSTAINABILITY

Never before has the impact of sustainable construction been so important than it is in our world today. Since day one Chem Link has been an environmentally conscious company. Our corporate commitment can be summarized in three primary categories of our business:

- **Engaged Employees**
- **Products & Sustainable Development**
- **Responsible Manufacturing**

Our specialty lies in the development of Silyl Terminated Polyether Technology (STPE). Inherently solvent free with little to no VOC content, this technology poses no threat to installers or building occupants and is environmentally friendly. These products are used throughout the SOPREMA Group of companies in a variety of applications and types of construction.

As a SOPREMA Group company, being on the forefront of responsible product design, sustainable operations and engaging our employees to participate in pushing the envelope for a greener tomorrow, has been at the heart of the company's mission and core values for years.

# ADHESIVES, SEALANTS, SYSTEMS & ACCESSORIES

RESIDENTIAL ■ COMMERCIAL ■ SPECIALTY

## ROOFING

Chem Link offers a variety of non-toxic, solvent free roofing sealants and adhesives, in both the capstone polyether and innovative silicone technologies. The essential **M-1® Universal Adhesive & Sealant** product is unmatched, bonding and sealing a wide range of construction materials, while the **DuraLink®** line accommodates joint movement and color matching. Chem Link's unique **E-Curb®** system is designed specifically for sealing roof penetrations of any size or shape.

## CONCRETE & MASONRY

**NovaLink®** is a line of non-toxic, high quality, moisture curing elastomeric waterproofing sealants that are designed to be used with many building materials, while withstanding damp, dry or cold conditions.

## SPECIALTY

Chem Link offers a line of specially formulated products for highly sensitive clean rooms, below-water marine applications and sealing close fitting joints and seams in recreational vehicles.

## WINDOWS, DOORS, & SIDING

Chem Link's **DuraLink®** product line offers a high quality, moisture cure sealant that are 100% solid and will not shrink. With multiple joint movement options, the ability to bond to most construction materials and extensive color matching, it's the perfect line for sealing around windows, doors and siding.

## MULTI-PURPOSE

Chem Link offers several multi-purpose products in both the capstone polyether and innovative silicone technologies to seal a wide range of construction materials. The **M-1® Universal Adhesive & Sealant** is essential on any jobsite. Another multi-purpose sealant, **Clear**, comes in a transparent formulation for multiple applications and surfaces.

## FLOORING & WALLS

The **Secure** product line includes adhesives for bonding drywall, gypsum, stone, foam and ceiling systems along with a fast setting structural adhesive for "panel on frame" assemblies in commercial and residential construction.

### Clear General Purpose Sealant

Clear is a general purpose, high performance, moisture cure sealant that can be used to seal a wide range of construction materials. Clear forms a transparent, elastic, waterproof seal to most metal, anodized aluminum, glass, vinyl, wood, masonry, polystyrene and many engineered plastics. Clear bonds to most roofing, siding, window, metal flashing, and HVAC.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)		APPLICATIONS
F1212	10.1 oz cartridge/24 per carton	<input type="checkbox"/> Clear		

### DuraLink SSL Semi Self-Leveling Lap Sealant

DuraLink SSL is a semi self-leveling, moisture cure sealant designed for sealing close fitting metal joints and external seams in recreational vehicles. DuraLink SSL's unique flow properties allow easy application to fill gaps in lap joints and flanges without running excessively. Its flexible formulation was designed for applications on EPDM rubber & TPO membrane (with TPO primer), fiberglass, wood, aluminum, and steel.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)		APPLICATIONS
F1266WH	10.1 oz cartridge/24 per carton	<input type="checkbox"/> White	<input checked="" type="checkbox"/> Black	

### SBS-Modified Bitumen Adhesive

SBS-Modified Bitumen Adhesive is a solvent free, moisture cure adhesive designed for easy installation of bituminous membranes in difficult wet or cold environments without sacrificing performance. SBS-Modified Bitumen Adhesive is a unique, isocyanate free formula that is safe for occupied buildings such as schools, hospitals, or food processing plants where solvent vapors are not tolerated.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)		APPLICATIONS
F1618*	2 gallon pail		<input checked="" type="checkbox"/> Black	
F1619*	5 gallon pail			

### Single Ply EPDM Adhesive

Single Ply EPDM Adhesive is a 100% solvent free, moisture cure, single coat adhesive that is used to fully adhere EPDM rubber. Wall and curb flashings still require a coating of the underside of the rubber and flashing. Single Ply EPDM Adhesive is a patented, moisture cure formula that offers easy installation of EPDM in difficult, damp or cold environments. It is safe for occupied buildings such as schools, offices, hospitals, or food processing plants, where solvent vapors and odors are not tolerated.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)		APPLICATIONS
F1703*	2 gallon pail		<input type="checkbox"/> Clear	
F1702*	5 gallon pail			

### Low VOC TPO Primer

A solvent based liquid primer that is designed to comply with VOC regulations. It can be brush applied to EPDM or TPO roofing membranes, plastics, and any other difficult bonding surface.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)	APPLICATIONS
F1280LVOC	4 pints/carton	 Amber	

### FlashPack Liquid Flashing

FlashPack Liquid Flashing is designed to waterproof around odd shaped roof penetrations in difficult flashing conditions.

PRODUCT CODE <small>*Made to order</small>	SIZING/KIT CONTENTS	STANDARD COLOR(S)	APPLICATIONS
F1501*	(4) 2 liter pouch/carton	 Gray	
F1500	Kit Contains: (3) 2 liter pouch of Liquid Flashing (2) 10.1 oz cartridges of M-1 Universal Adhesive & Sealant, (1) 50 ft scrim, rubber gloves & trowel		

### Quick Cut Roof Cleaner

Quick Cut is an industrial strength cleaner specifically formulated to break the soil to surface bond and hold the particles in suspension for easy removal.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)	APPLICATIONS
F9932	(4) 1 gallon jugs per carton	 Clear
