## Roller Frames

The **48400** has a quick release spring that prevents roller slippage, smooth bearings for reliable applications, a polypropylene grip and a threaded handle adapter. It is one of the best universal roller frames on the market. The **48403** is a traditional "paint roller" style frame and the handle contains a threaded handle adapter. The **48410** adjusts to hold all roller covers from 9" to 18" wide. It has a rigid and durable steel frame with a threaded handle adapter, yet weighs less than one pound. The **48418** is a lightweight, yet the durable polypropylene 18" non-adjustable frame can accommodate any of the 18" roller covers we offer. This frame offers a threaded handle adapter and the fiber-glass-reinforced nylon legs are replaceable.

## Heavy-Duty Fixed Width Aluminum Frames EXCLUSIVE

These are the most durable frames on the market. They are available in widths of 9", 18", 24" and 36" and can be used with any of our roller covers and nylon and metal tined rollers. The frames can be ordered with either a threaded handle adapter or with a fixed handle assembly. These heavy-duty solid aluminum frames are solvent-resistant and can be easily cleaned after each use. Special 3/8" post hole end caps are available for use with these exclusive frames when using 9" - 36" roller covers and spiked rollers. These polypropylene end caps are used to adapt the frames to any standard 1-1/2" roller. They are sold in quantities of 1 pair or a bag of 24 (see top of page).

Ask about custom sizes up to 60" in width.

**For Handle Options See Page 28**

## Metal-Tined Spiked Roller Covers

Midwest Rake® spiked rollers are premium quality and engineered to provide maximum performance to minimize out-gassing and promote leveling characteristics of resinous coatings as well as resurfacing materials of all types. A more dense steel tine configuration, modeled after the traditional "porcupine" roller. These rollers have a 1-1/2" aluminum core. Metal-tined spiked rollers work remarkably well with cementitious and gypsum based overlays to promote self-leveling and reduce out-gassing. All spiked rollers come with 3/8" black end-caps.
