

Adhesives

To bond wood to wood and virtually anything else, 3M brings it all together to help you assemble your woodworking design. Converting from mechanical fasteners to adhesives and tapes can offer many benefits. 3M has adhesives that are Low VOC, CARB/OTC VOC Compliant and help contribute to LEED® Credits. With their wide range of unique characteristics and their ability to bond a variety of substrates, 3M industrial bonding solutions can help you simplify attachments, streamline construction, cut costs and improve quality.
