

TECHNICAL BULLETIN

DATE: OCT 01, 2015

DOCUMENT NO: CLTB 00136

TO: Contractors, Distributors & Architects

FROM: CHEM LINK Technical Services Division 1-800-826-1681

SUBJECT: *Low VOC TPO Primer*

As CHEM LINK continues to focus on doing no harm to each other or the environment, we are replacing our current TPO primer with a new Low VOC TPO primer.

This new primer conforms to California Proposition 65 and the Ozone Transport Commission (OTC) states containing <250 grams/liter VOC.

- The new Low VOC TPO primer item number is F1280LVOC

In conjunction with this change, we will also be including the Low VOC TPO primer in our white E-curb kits for TPO membrane. This revision includes the following items:

- F1354WH - 4" White Ecurb Kit
- F1350WH - 6" White Ecurb Kit
- F1351WH - 9" White Ecurb Kit

If TPO primer is not required. CHEM LINK offers a white Ecurb kit without the primer. These kits are listed as follows:

- F1354WHNP - 4" White Ecurb Kit without TPO Primer
- F1350WHNP - 6" White Ecurb Kit without TPO Primer
- F1351WHNP - 9" White Ecurb Kit without TPO Primer

***Please note that CHEM LINK recommends the use of this Low VOC TPO primer on all TPO Membranes.**
