**MasterSeal® AWB 660 (Formerly known as Enershield® HP)  
Product Information Statement for LEED® v. 4 Credit Documentation**

MasterSeal® AWB 660 is a single component fluid-applied air/water-resistive barrier material.

BASF Corporation certifies the following information for MasterSeal® AWB 660:

**MR Credit Building Product Disclosure and Optimization – Environmental Product Declarations**

An Environmental Product Declaration (EPD) is not available for MasterSeal® AWB 660.

**MR Credit Building Product Disclosure and Optimization – Sourcing of Raw Materials**

Raw Material Source and Extraction Reporting is not available for MasterSeal® AWB 660.

Recycled and Bio-based materials are not used in the manufacture of MasterSeal® AWB 660.

**MR Credit Build Product Disclosure and Optimizations – Material Ingredients**

Material Ingredient Reporting is not available for MasterSeal® AWB 660.

Health Product Declaration and Cradle-to-Cradle Reporting is not available for MasterSeal® AWB 660

**EQ Credit Low-Emitting Materials**

MasterSeal® AWB 660 has a VOC (volatile organic compound) content of 11 g/l.

Emissions Test Reporting is not available for MasterSeal® AWB 660.

Respectfully,
