Protectosil® AQUA-TRETE EM

142396

1. Identification

Material no.

Specification

Order number

1.1. Product identifier

Trade name Protectosil® AQUA-TRETE EM

Chemical Name Protectosil® AQUA-TRETE EM

1.2. Recommended use of the chemical and restrictions on use

Relevant applications identified For industrial use

1.3. Details of the supplier of the safety data sheet

Company Evonik Corporation 299

Jefferson Road

Parsippany, NJ 07054-0677

USA

Telephone 973-929-8000

Telefax 973-929-8040

Email address Product-Regulatory-Services@evonik.com

1.4. 24 HOUR EMERGENCY TELEPHONE NUMBERS:

CHEMTREC - US &

CANADA:

800-424-9300

CHEMTREC MEXICO: 01-800-681-9531

CHEMTREC +1 703-527-3887 (collect calls accepted)

973-929-8060

Services:

2. Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation 29CFR 1910.1200

Remarks Not a hazardous substance or mixture.

2.2. Label elements

Statutory basis Classification according to Regulation 29CFR 1910.1200

Remarks Not a hazardous substance or mixture.

Supplemental hazard information / Label elements

2.3. Other hazards

3. Composition / information on ingredients

Protectosil® AQUA-TRETE EM

 Material no.
 Version
 4.1 / US

Other information

This material is classified as not hazardous under OSHA regulations.

4. First aid measures

4.1. Description of first aid measures

Inhalation

If inhaled, remove to fresh air. If breathing is difficult, give oxygen. If unconscious, evaluate the need for artificial respiration. Get immediate medical attention.

Skin contact

Remove contaminated clothing/shoes. Flush skin with water. Follow by washing with soap and water. If symptoms develop or persist, obtain medical attention. Wash clothing before reuse.

Eye contact

In case of contact, immediately flush eyes with plenty of water for at least 15 minutes or until all material has been removed. Obtain medical attention.

Ingestion

Aspiration of material into the lungs may cause chemical pneumonitis (damage to lungs) which may be fatal.

If swallowed, get medical attention immediately. Only induce vomiting if directed by a physician. Never give anything by mouth to an unconscious person.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms

None known

Hazards

None known

4.3. Indication of any immediate medical attention and special treatment needed

None known.

5. Fire-fighting measures

5.1. Extinguishing media

Suitable extinguishing media: Use water spray or fog, foam, dry chemical or CO2.

Unsuitable extinguishing media: High volume water jet.

5.2. Special hazards arising from the substance or mixture

Can burn in fire forming carbon dioxide and some carbon monoxide.

5.3. Advice for firefighters

As in any fire, wear self-contained positive-pressure breathing apparatus, (MSHA / NIOSH approved or equivalent) and full protective gear.

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Assure sufficient ventilation. Wear personal protective equipment; see section 8.

6.2. Environmental precautions

Obey relevant local, state, provincial and federal laws and regulations. Do not contaminate any lakes, streams, ponds, groundwater or soil.

6.3. Methods and material for containment and cleaning up

Absorb spill with inert material, then place in a chemical waste container.

7. Handling and storage

7.1. Precautions for safe handling

Do not breathe vapors or spray mist. Wash thoroughly after handling. Follow all MSDS/label precautions even after container is emptied because it may retain product residues.

7.2. Conditions for safe storage, including any incompatibilities

Storage

Keep container tightly closed in a dry and well -ventilated place.

8. Exposure controls/personal protection

8.1. Control parameters

Other information

Contains no substances with occupational exposure limit values.

8.2. Exposure controls

Engineering measures

Provide adequate ventilation.

Personal protective

equipment

Respiratory protection

A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 or applicable federal/provincial requirements must be followed whenever workplace conditions warrant respirator use. NIOSH's "Respirator Decision Logic" may be useful in determining the suitability of various types of respirators.

Hand protection

Use impermeable gloves.

Eye protection

Use chemical splash goggles or face shield.

Skin and body protection

A safety shower and eye wash fountain should be readily available.

To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132) be conducted before using this product.

9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state liquid
Color white
Form liquid
Odor odorless

Odor Threshold not determined

pH not applicable

Melting point/range no data available

Protectosil® AQUA-TRETE EM

100 °C Boiling point/range

Flash point 93.33 °C

> Pensky-Martens C.C. Method:

Evaporation rate not determined

Flammability (solid, gas) no data available

Lower explosion limit not determined

Upper explosion limit not determined

Vapor pressure not determined

Relative vapor density Heavier than air

Relative density 0.98

Water solubility miscible

Partition coefficient: n-

octanol/water

not determined

Autoignition temperature not determined

Thermal decomposition not determined

Viscosity, dynamic no data available

Other information

% VOC (gm/l) 90

10. Stability and reactivity

10.1. Reactivity

No dangerous reaction known under conditions of normal use.

10.2. Chemical stability

Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions

Possibility of hazardous No dangerous reactions known.

reactions

10.4. Conditions to avoid

Keep away from heat and sources of ignition.

10.5. Incompatible materials

Incompatible substances: Acids, strong bases, oxidizing agents, alkalis.

10.6. Hazardous decomposition products

Silicon dioxide.

This product is stable under normal storage conditions.

Product will not undergo hazardous polymerization.

11. Toxicological information

11.1. Information on toxicological effects

Carcinogenicity assessment Contains ethylbenzene which is classified as an IARC 2B carcinogen

(possible carcinogenic to humans).

Further information No results of animal experiments with the product available.

12. Ecological information

12.1. Toxicity

Toxicity to fish no data available

12.2. Persistence and degradability

Biodegradability no data available

12.3. Bioaccumulative potential

Bioaccumulation no data available

12.4. Mobility in soil

Mobility no data available.

12.5. Other adverse effects

Further Information No ecotoxicological studies are available.

13. Disposal considerations

13.1. Waste treatment methods

Product

Waste must be disposed of in accordance with federal, state and local regulations. Incineration is the preferred method.

Uncleaned packaging

Packaging, that cannot be reused after cleaning must be disposed or recycled in accordance with all federal, national and local regulations.

14. Transport information

Not dangerous according to transport regulations.

14.1. UN number: --

14.2. UN proper shipping name: --

14.3. Transport hazard class(es): -14.4. Packing group: -14.5. Environmental hazards (Marine pollutant): --

14.6. Special precautions for user: Yes

Not dangerous according to transport regulations.

15. Regulatory information

US Federal Regulations

OSHA

If listed below, chemical specific standards apply to the product or components:

None listed

Clean Air Act Section (112)

If listed below, components present at or above the de minimus level are hazardous air pollutants:

None listed

CERCLA Reportable Quantities

If listed below, a reportable quantity (RQ) applies to the product based on the percent of the named component:

None listed

SARA Title III Section 311/312 Hazard Categories

The product meets the criteria only for the listed hazard classes:

No SARA Hazards

SARA Title III Section 313 Reportable Substance s

If listed below, components are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:

None listed

Toxic Substances Control Act (TSCA)

If listed below, non-proprietary substances are subject to export notification under Section 12 (b) of TSCA:

None listed

State Regulations

The Listing requirements of the Right to Know (RTK) legislation varies by state. All information for NJ, PA, MA and other states can be derived from the listing of hazardous and non-hazardous components in section 2 and 15 of this MSDS.

California Proposition 65

A warning under the California Drinking Water Act is required only if listed below:

None listed

An employer using HMIS/NFPA labeling must through training ensure that its employees are fully aware of the hazards of the chemicals used.

HMIS Ratings

Health: 1 Flammability: 1 Physical Hazard: 0

NFPA Ratings

Health: 1 Flammability: 1 Reactivity: 0
