

Liquid Granite and Liquid Terrazzo System - Training

Welcome to Westcoat's Liquid Granite and Liquid Terrazzo Self-Educated Training. The purpose of this course is to increase your knowledge of our Liquid Granite and Liquid Terrazzo 100% Solids epoxy system. Liquid Granite and Liquid Terrazzo are designed for use in showrooms, restaurants, garages, recreation rooms, washrooms, and kitchens. Liquid Granite or Liquid Terrazzo is a decorative, durable chemical resistant coating which makes it perfect for residential and commercial applications. Liquid Granite and Liquid Terrazzo are designed to be used as a light duty coating.

This is a two-step process that will take approximately 45 - 60 minutes to complete. You will be required to complete a short test and submit your answers.

Education

- 1) Quick Reference Guide (QRG). Review the system overview sheet. The one-page sheet describes each step/layer of each Liquid Granite and Liquid Terrazzo system.

4) Material List. Below is a list of all the materials used for the Liquid Granite and Liquid Terrazzo System. Familiarize yourself with each component needed and the packaging and the sizes available.

- EC-72 Epoxy Patch Gel (½ and 2 gallon kits)
- EC-12 Epoxy Primer (1½ and 15 gallon kits)
- EC-34 Epoxy Topcoat (1½ and 15 gallon kits)
- EC-32 Epoxy Clear Topcoat (1½ and 15 gallon kits)
- TC-60 Color Chips (55 lb boxes sold per box)

5) Materials Cost. Westcoat’s Materials Cost Template is a powerful tool for you and your customer to know how much of each product to purchase to complete the job. Having this tool will also help the contractor properly bid the job, knowing what the up-front costs will be. Click below, find the Liquid Granite and Liquid Terrazzo Cost Template, download and estimate the materials and associated cost for Liquid Granite and Liquid Terrazzo on a 3000 sq ft. job.
