Subject: Rapid Set Cement ALL® information

To: Tim Bush, Protecto Wrap.

The following information is for Cement All® Compatibility with Protecto Wrap Jiffy Seal 140/60

Rapid Set Cement All is a high-performance, fast-setting, multipurpose concrete repair material that may be coated with most solvent-based and impermeable products after 16 hours. Based on Protecto Wrap Jiffy Seals 140/60 technical data sheet Cement All would be considered a suitable substrate. CTS recommends following all Jiffy Seal's 140/60 recommendations for installation practices and limitations.

Please feel free to contact your local CTS sales representative if you have any further questions or concerns.

Respectfully,

A handwritten signature in black ink, appearing to read "Alfredo Perez".
