

# EASYSQUEEGEE®

CLEANABLE & REUSABLE US PATENT 10,165,923

## PRECISION APPLICATION SQUEEGEE SYSTEM

## FINALLY A TRULY CLEANABLE & REUSABLE PRECISION APPLICATION SQUEEGEE SYSTEM

The **EasySqueegee®** provides industry leading precision, predictability and versatility when compared to competitive products.

The **self-locating & self-leveling** blades ensure your blade is straight, level and in perfect contact with the floor every time.

The eight unique engineered blades provide a level of versatility and jobsite application options not currently available from any competitive application squeegee tool today.

**Cured Coatings Release** technology ensures the frame is reusable regardless of the material (Epoxy and Urethanes) you're putting down with the **EasySqueegee®**, once cured the frame can be cleaned.

**INTELLIGENT BLADE IDENTIFICATION**  
All blades inscribed with WFT and WFSR information.

**SELF-LEVELING BLADES**  
Accurate and predictable Wet Film Thickness every time.

**SELF-LOCATING BLADES**  
Designed to provide industry leading accuracy.

**PROTECTED THREADS AND FASTENERS**  
Eliminates material contact with threads.

**THUMB SCREWS REPLACE NUTS**  
Features Cured Coatings Release Technology for cleanliness.

Wet Film Spread Rates (WFSR FT<sup>2</sup> / Gal.) are not absolute but provided to assist blade selection. Many factors can contribute to the actual WFSR including pressure exerted on the blade, porosity of the substrate being coated, material used and if and how the back-roll is completed. If you have any questions or would like to discuss the particulars of your project please contact us.
