Air-Bloc 21 - Trowel Grade by Henry Company

Health Product Declaration v2.0

created via: HPDC Online Builder

PRODUCT DESCRIPTION: AIR-BLOC 21 IS A TROWEL CONSISTENCY SOLVENT TYPE, SYNTHETIC RUBBER BASED INSULATION CONTACT ADHESIVE FORMULATED FOR EASE OF APPLICATION TO CONSTRUCTION SURFACES SUCH AS MASONRY AND CONCRETE, GYPSUM BOARD AND WOOD. CURES TO A FLEXIBLE FILM WHICH RESISTS AIR LEAKAGE. DESIGNED TO BE USED AS A FULL BED ADHESIVE IN CONJUNCTION WITH RIGID FOAM OR SEMI-RIGID PAPER-FACED INSULATION TO PROVIDE AN AIR BARRIER.

CONTENT

Section 1: Summary

INVENTORY		Based on the selected Content Inventory Threshold:		
	Residuals and			
Threshold per	impurities	Characterized	•	0
material	considered in	Are the Percent Weight and Role provided for all substances?	Yes	No
1 00 ppm	1 of 1 materials	Screened	•	0
O 1,000 ppm O Per GHS SDS O Per OSHA MSDS	see Section 2:Material Notessee Section 5:	Are all substances screened using Priority Hazard Lists with results disclosed?	Yes	No
Onther	General Notes	Identified	•	0
Other	General Notes	Are all substances disclosed by Name (Specific or Generic) and Identifier?	Yes	No

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

MATERIAL | SUBSTANCE | RESIDUAL OR IMPURITY GREENSCREEN SCORE | HAZARD TYPE

Section 2: Content in Descending Order of Quantity

This section lists materials in a product and the substances in each material based on the Inventory Threshold for each material. If residuals or impurities from the manufacturing or extraction processes are considered for a material, these are inventoried and characterized to the extent described in the Material and/or General Notes. Chemical substances are screened against the HPD Priority Hazard Lists for human and environmental health impacts. Screening is based on best available information; "Not Found" does not necessarily mean there is no potential hazard associated with the product or its contents. More information about Priority Hazard Lists and the GreenScreen can be found online: www.hpd-collaborative.org and www.greenscreenchemicals.org.

Section 3: Certifications and Compliance

SUBSTANCE NOTES: Not available in its respirable form.

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

Section 5: General Notes

MANUFACTURER INFORMATION

MANUFACTURER: Henry Company

ADDRESS: 999 N. Sepulveda Blvd

Suite 800

El Segundo, CA 90245

USA

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator, and when available, full GreenScreen assessments. The HPD Open Standard does not provide an assessment of health impacts throughout the product life cycle. It does not provide an assessment of exposure or risk associated with product handling or use. It also does not address potential health impacts of: (i) substances used or created during the manufacturing process unless they remain in the final product, or (ii) substances created after the product is delivered for end use (e.g., if the product burns, degrades, or otherwise changes chemical composition).

The HPD Open Standard was created and is maintained and evolved by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry. The HPD Collaborative is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

A disclosure completed in compliance with the HPD Open Standard is referred to as a "Health Product Declaration," or "HPD." The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD Open Standard noted.
