

COMMITMENT TO SUSTAINABILITY

Never before has the impact of sustainable construction been so important than it is in our world today. Since day one Chem Link has been an environmentally conscious company. Our corporate commitment can be summarized in three primary categories of our business:

- **Engaged Employees**
- **Products & Sustainable Development**
- **Responsible Manufacturing**

Our specialty lies in the development of Silyl Terminated Polyether Technology (STPE). Inherently solvent free with little to no VOC content, this technology poses no threat to installers or building occupants and is environmentally friendly. These products are used throughout the SOPREMA Group of companies in a variety of applications and types of construction.

As a SOPREMA Group company, being on the forefront of responsible product design, sustainable operations and engaging our employees to participate in pushing the envelope for a greener tomorrow, has been at the heart of the company's mission and core values for years.

ADHESIVES, SEALANTS, SYSTEMS & ACCESSORIES

RESIDENTIAL ■ COMMERCIAL ■ SPECIALTY

ROOFING

Chem Link offers a variety of non-toxic, solvent free roofing sealants and adhesives, in both the capstone polyether and innovative silicone technologies. The essential **M-1® Universal Adhesive & Sealant** product is unmatched, bonding and sealing a wide range of construction materials, while the **DuraLink®** line accommodates joint movement and color matching. Chem Link's unique **E-Curb®** system is designed specifically for sealing roof penetrations of any size or shape.

CONCRETE & MASONRY

NovaLink® is a line of non-toxic, high quality, moisture curing elastomeric waterproofing sealants that are designed to be used with many building materials, while withstanding damp, dry or cold conditions.

SPECIALTY

Chem Link offers a line of specially formulated products for highly sensitive clean rooms, below-water marine applications and sealing close fitting joints and seams in recreational vehicles.

WINDOWS, DOORS, & SIDING

Chem Link's **DuraLink®** product line offers a high quality, moisture cure sealant that are 100% solid and will not shrink. With multiple joint movement options, the ability to bond to most construction materials and extensive color matching, it's the perfect line for sealing around windows, doors and siding.

MULTI-PURPOSE

Chem Link offers several multi-purpose products in both the capstone polyether and innovative silicone technologies to seal a wide range of construction materials. The **M-1® Universal Adhesive & Sealant** is essential on any jobsite. Another multi-purpose sealant, **Clear**, comes in a transparent formulation for multiple applications and surfaces.

FLOORING & WALLS

The **Secure** product line includes adhesives for bonding drywall, gypsum, stone, foam and ceiling systems along with a fast setting structural adhesive for "panel on frame" assemblies in commercial and residential construction.

M-1[®]

M-1 Universal Adhesive & Sealant is a versatile, moisture curing, high performance polyether adhesive sealant designed for difficult construction site conditions such as wet or dry climates. Following Chem Link's dedication to sustainability, M-1 is solvent-free and safe for workers, occupants and the environment.

- Non-slump, applies vertically and overhead
- Can be applied on damp surfaces
- 390 pli of shear strength
- 370 pli of tensile strength
- 111 pli of tear strength
- 525% Elongation
- +/- 35% joint movement
- 20 minute skin over - paintable within 24 hours

AMAZON SPHERES SEATTLE, WASHINGTON

Amazon created a one-of-a-kind vision for their headquarters in Seattle, Washington featuring three spherical conservatories filled with live plants and trees. In order to drive the philosophy of the living green space, M-1 was chosen as a key product in construction due to its high performing, solvent-free, environmentally friendly features.

M-1 Universal Adhesive & Sealant

M-1 is a moisture cure, multi-purpose structural adhesive & sealant designed for bonding and sealing a wide range of construction materials. M-1 forms a tough elastic waterproof seal to most roofing materials, masonry, wood, glass, aluminum and foam. M-1 bonds well to most building surfaces including: metal flashing, copings, skylights, and HVAC surfaces.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S) <small>In stock colors - other colors available made to order</small>				APPLICATIONS	
F1277	5 oz squeeze tube/36 per master pack	 White					
F1209	10.1 oz cartridge/16 per field pack	 White	 Gray	 Black	 Limestone		
F1270	10.1 oz cartridge/24 per carton	 White	 Gray	 Black	 Limestone		
		 Tan	 Dark Bronze				
F1190	20 oz sausage/12 per carton	 White		 Gray			
F1204	28 oz sausage/12 per carton	 White	 Gray	 Black			
F1205	2 gallon pail						
F1206	5 gallon pail	 Gray					
50 Gal*	50 gallon drum	*Available by made to order					

M-1 CR Clean Room Certified Adhesive/Sealant

M-1 CR (Clean Room) is a thermosetting, moisture cure sealant which does not contain solvent or isocyanates. M-1 CR has been tested for airborne molecular contamination and is approved for semiconductor clean room use. Fully cured M-1 CR releases virtually no molecular air contamination at room temperature. M-1 CR is specified for biomedical, electronics, and aerospace clean rooms where contamination of the air and working surfaces cannot be tolerated.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)		APPLICATIONS
F1224	10.1 oz cartridge/16 per field pack	 White	 Gray	

M-1 Marine Grade Moisture Cure Adhesive/Sealant for Below Water

M-1 Marine is a moisture cure adhesive/sealant formulated for applications above or, post cure, below the water line. M-1 Marine is free of solvents and isocyanates, will not shrink upon curing or discolor from ultraviolet exposure, and will not bubble on damp surfaces.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)		APPLICATIONS
F1274	10.1 oz cartridge/12 per carton	 White	 Gray
