

ALSAN[®] RS FLEECE

ALSAN RS Fleece is a woven polyester reinforcement used in ALSAN RS liquid membrane applications.

INSTALLATION

Roll out ALSAN RS Fleece into ALSAN RS liquid resin, making sure that the fleece is smooth. Using a roller, saturate the fleece with ALSAN RS resin by applying light pressure. Apply additional liquid resin mix on top of ALSAN RS Fleece until fully saturated and the layer of resin is fully and evenly applied.

ALSAN[®] RS CLEANER

ALSAN RS Cleaner is a clear, blended solvent used to clean and prepare plastic and metal surfaces prior to application of ALSAN RS. ALSAN RS Cleaner may also be used as solvent for cleaning spills, tools and equipment.

INSTALLATION

ALSAN RS Cleaner should be applied using clean rags or cloths. After the cleaner has been allowed 15 minutes to evaporate, the surface may be coated.
