

PROTECTO FORM FLASH 2 EPDM

Universal Conformable Flashing Tape

Pipe penetrations

Sky lights

Roof to wall transition

**10 Year Limited
Warranty**

- Form Flash 2 is a peel & stick, flexible EPDM roof penetration flashing tape that stretches, conforms and seals around penetrations in roofs and walls
- Seals penetrations in roof assemblies
- Compatible with and adheres to TPO, PVC and EPDM
- Has an aggressive butyl based adhesive that adheres to plywood, OSB, PVC, steel, aluminum and plastic
- The UV resistant uncured EPDM facer conforms in all directions allowing it to stretch around penetrations while the butyl adhesive remains flexible in extreme hot and cold temperatures
- Seals out water
- Stops heating and air conditioning loss around penetrations
- Available in 4" and 6" x 15' rolls
- Seals around properly installed fasteners
- Forms a positive air/vapor barrier
- Forms an insect and rodent barrier around penetrations
- Can be painted – recommend spray paint
- Compatible with most building products and EPDM
- Excellent flexibility and extensibility in all directions
- Perfect for sealing around: electrical power mast, pipe penetrations, roof ventilation, plumbing soil penetrations, sky lights, roof to chimneys, roof to wall, patching valleys, gutters and shingles, CMU and poured in place concrete

Conformable around irregular shapes and rated for full exposure to UV

PRECAUTION: Protecto Form Flash 2 EPDM should not be used in conjunction with sealants containing solvents, mineral spirits and products containing hydro carbons or VOC's. See technical data sheet.
