

# B26T200 and B26T400

Bulletin 291A

Both models handle 2:1 and 1:1 cartridge applications

## Introducing Albion's Multi-Component 200ml & 400ml cartridge dispensing tools.

*The integration of Albion's legendary quality with state-of-the-art engineering means that our B-Line tools surpass the competition in value and durability.*

### Compare the "B26" features with any other gun:

- **26:1 thrust ratio**— Makes dispensing the thickest material easier.
- **Longer dispensing tool life**— Albion's adjustment screw technology means increased

life of the gun—as the tool wears you can adjust the screw to eliminate wasted motion.

- **Increased durability**— Albion's legendary double gripping plates and steel trigger means increased durability; if it's dropped it won't break.

- **More user friendly**— Albion's unique design handles both 1:1 and 2:1 cartridges with no changeover — cartridges simply snap into place.

- **Increased efficiency**— Albion's improved pump efficiency means you get the job done quicker. Designed so that it takes fewer pumps to empty a cartridge, you get more efficient use of hand motion.

**Don't settle for anything less than the best.** For more information, visit us at our website at [www.albioneng.com](http://www.albioneng.com). Our full line of products come with an Albion warranty and our commitment to professional quality tools.

**B26T200 & B26T400** both use 1:1 and 2:1 cartridges
