

Technical Bulletins

CCW PRODUCT LINE SHELF LIFE

The following is a list of the minimum shelf lives for the Carlisle Coatings & Waterproofing product line. Shelf lives are based on the date of manufacture and are referenced on batch codes found on labels placed on the products. Since many batch codes are structured differently, please contact either CCW Customer Service or Technical Service for specific batch code interpretation.

All products must be stored in accordance with CCW requirements, as improper handling and storage will adversely affect product quality and workability.

6 Months

- CCW MiraSEAL

9 Months

- CCW Barriseal®-S
- CCW Barricoat®-S

1 Year (12 Months)
