

TREMPRO® 635

Fast-Cure, Low-VOC, Hybrid Polyurethane Sealant

Product Overview

TremPro® 635 utilizes a solvent-free technology, which represents technical advances over existing polyurethane systems. It demonstrates excellent adhesion to many substrates, including ferrous and non-ferrous metals, kynar finishes, composites and many plastic/rubber substrates.

TremPro 635 is especially useful as a topical sealant in the fabrication of trailers, trucks, campers, buses, trains and specialty vehicles. It can also be used in joints and seams in architectural panels and pre-engineered buildings, including metal buildings, log homes, and modular homes.

Features & Benefits

- Single-component, gungrade polyurethane sealant
- Fast-curing
- Low VOC
- Cures to a flexible rubber when exposed to atmospheric moisture
- Low-to-medium modulus
- Good adhesion to many substrates
