

COMMITMENT TO SUSTAINABILITY

Never before has the impact of sustainable construction been so important than it is in our world today. Since day one Chem Link has been an environmentally conscious company. Our corporate commitment can be summarized in three primary categories of our business:

- **Engaged Employees**
- **Products & Sustainable Development**
- **Responsible Manufacturing**

Our specialty lies in the development of Silyl Terminated Polyether Technology (STPE). Inherently solvent free with little to no VOC content, this technology poses no threat to installers or building occupants and is environmentally friendly. These products are used throughout the SOPREMA Group of companies in a variety of applications and types of construction.

As a SOPREMA Group company, being on the forefront of responsible product design, sustainable operations and engaging our employees to participate in pushing the envelope for a greener tomorrow, has been at the heart of the company's mission and core values for years.

ADHESIVES, SEALANTS, SYSTEMS & ACCESSORIES

RESIDENTIAL ■ COMMERCIAL ■ SPECIALTY

ROOFING

Chem Link offers a variety of non-toxic, solvent free roofing sealants and adhesives, in both the capstone polyether and innovative silicone technologies. The essential **M-1® Universal Adhesive & Sealant** product is unmatched, bonding and sealing a wide range of construction materials, while the **DuraLink®** line accommodates joint movement and color matching. Chem Link's unique **E-Curb®** system is designed specifically for sealing roof penetrations of any size or shape.

CONCRETE & MASONRY

NovaLink® is a line of non-toxic, high quality, moisture curing elastomeric waterproofing sealants that are designed to be used with many building materials, while withstanding damp, dry or cold conditions.

SPECIALTY

Chem Link offers a line of specially formulated products for highly sensitive clean rooms, below-water marine applications and sealing close fitting joints and seams in recreational vehicles.

WINDOWS, DOORS, & SIDING

Chem Link's **DuraLink®** product line offers a high quality, moisture cure sealant that are 100% solid and will not shrink. With multiple joint movement options, the ability to bond to most construction materials and extensive color matching, it's the perfect line for sealing around windows, doors and siding.

MULTI-PURPOSE

Chem Link offers several multi-purpose products in both the capstone polyether and innovative silicone technologies to seal a wide range of construction materials. The **M-1® Universal Adhesive & Sealant** is essential on any jobsite. Another multi-purpose sealant, **Clear**, comes in a transparent formulation for multiple applications and surfaces.

FLOORING & WALLS

The **Secure** product line includes adhesives for bonding drywall, gypsum, stone, foam and ceiling systems along with a fast setting structural adhesive for "panel on frame" assemblies in commercial and residential construction.

Pourable Sealants

1-Part® Pourable Sealant

1-Part is a moisture curing, pourable sealant designed for use in pitch pans and warranted ChemCurb/E-Curb penetration seals. 1-Part is suitable for application in damp, dry, or cold climates. 1-Part is solvent free, contains no isocyanates and will not shrink upon curing. 1-Part has resilient elastomeric properties and excellent adhesion to most construction materials.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)			APPLICATIONS
F1428	10.1 oz cartridge/24 per carton	<input type="checkbox"/> White			
F1400	28 oz cartridge/12 per carton	<input checked="" type="checkbox"/> Gray			
F1425	½ gallon pouch/4 per field pack	<input checked="" type="checkbox"/> Gray	<input type="checkbox"/> White	<input checked="" type="checkbox"/> Black	
F1426	½ gallon pouch/4 per carton				
F1427*	5 gallon pail	<small>*Available by made to order</small>			

Pro Pack® Solvent-Free Urethane Pourable Sealer

Pro Pack is a two-part, pourable, 100% solids urethane sealant which requires mixing but delivers a much faster cure than 1-Part. Pro Pack is self-leveling, non-shrinking and cures to a flexible, long-lasting urethane seal.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)		APPLICATIONS
F1000	2 gallon kit/2 pails per carton	<input checked="" type="checkbox"/> Black		

DuraSil® SL Pourable Silicone Sealant

DuraSil SL is a one-part, pourable, neutral cure, silicone-based sealant designed for use in E-Curb penetrations on silicone roof coatings as well as around HVAC, electrical or mechanical equipment, solar panel mounts, and applications where 400°F (204°C) "hot pipe" service is needed.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)		APPLICATIONS
F1223	2 liter pouch/4 per carton	<input checked="" type="checkbox"/> Gray		

Silicones & Miscellaneous

DuraSil High Performance Silicone Adhesive Sealant

DuraSil is a neutral cure silicone construction sealant used for a wide range of applications. It has outstanding weather resistance and durability in dry, cold, or wet conditions. DuraSil is stable to temperatures up to 400°F (204°C). DuraSil bonds well to Kynar 500® PVDF coated metal, copper, glass block, and other building materials. DuraSil may be used to seal windows, doors, curtain walls, marine, and transportation applications.

PRODUCT CODE <small>*Made to order</small>	SIZING/PACKAGING	STANDARD COLOR(S)	APPLICATIONS
F1211	10.1 oz cartridge/24 per carton	 Translucent	 
F1207*	20 oz sausage/12 per carton		
F1217*	5 gallon pail		

MetaLink High Performance Silicone Metal Roof Sealant

MetaLink is a multi-purpose neutral cure silicone construction sealant specially formulated for application in a variety of job site conditions. MetaLink is UV resistant. MetaLink is designed for use with many building materials including galvanized aluminum, metal, Kynar 500® PVDF coated metal, glass, and most roofing materials. MetaLink is available in a wide range of colors to match contemporary tastes in decorative metal roof and siding products. MetaLink is isocyanate free and validated for ± 50% joint movement.
